for the way you live

Manufacturer's Certification Statement

This manufacturer's certification statement provides the documentation required to receive an energy tax credit for qualifying exterior windows as defined by the *American Recovery and Reinvestment Act of 2009*, signed into law on February 17, 2009. **To qualify for the energy tax credit, windows and doors under this new law must have a U-factor and Solar Heat Gain Coefficient (SHGC) that is equal to or less than 0.30.**

GRANDURA, 1195 Prince Hall Drive, Beloit, WI 53511 confirms the thermal performance criteria for all Energy Star compliant GRANDURA windows and doors have been independently tested and validated by the National Fenestration Rating Council (NFRC).

This certificate validates all products that are energy tax credit compliant. The homeowner should save a copy of this document that is also available at www.GranduraLiving.com, the NFRC labels from the purchased window(s) and your purchase receipt in their tax file. These documents will serve as proof to the IRS that the exterior window(s) purchased qualify for the 2009/2010 Tax Credit.

Under penalties of perjury, I declare that I have examined this certification statement, and to the best of my knowledge and belief, the facts are true, correct and complete.
